

**Entry Process Subcommittee – High Level Requirements**  
**October 9, 2001**

The following are the high level requirements recommended by the Entry Process Subcommittee.

	<b>High Level Recommendation</b>
1.	Reconciliation be moved up the chart (or down the chart -- moved ahead of the current step).
2.	Flexibility in all entry/entry summary transactions.
3.	Easy access to information from Customs (data warehouse).
4.	ACE will provide the means for electronic post-entry adjustments. The system will allow for improved reconciliation and methods for the trade community to electronically correct entry summary and IASS.
5.	Eliminate duplication of data on entry and entry summary.
6	Eliminate the transmission of data elements that are already on file with Customs (surety codes, for example).
7.	ACE should have fungibility of tariff numbers and monies for each account. <sup>1</sup>
8.	Elimination of current rounding rules. A simple rule could be -- round every calculation to the nearest one cent.

---

<sup>1</sup> "Fungible – (esp of goods) being of such nature or kind as to be freely exchangeable or replaceable for another of like nature or kind.
